

Information Sheet

Short Programme in Strategic Logistics Management

About the Short Programme

The Short Programme in Strategic Logistics Management improves the efficiency of each department within a business by simplifying its operations and costs and therefore making the business more profitable. The programme covers all aspects of strategic logistics management. All Short programmes are non-credit bearing.

Who should attend this Programme?

- Supervisors
- People who are already working in a strategic logistic environment who want to get a formal certification.
- People working in procurement or who wish to pursue a career in purchasing.

Admission Requirements

- Grade 11 and proficient in the English language.

Programme Outline

• Introduction to supply chain management	• Customer service
• Sourcing	• Logistics Information systems
• Contract management	• Logistics channels and network design
• Warehousing	• Alignment of supply and demand
• Inventory	• Management Strategies
• Manufacturing and operations	• Global Logistics
• Reverse logistics	• Integrated supply chain risk management
